

I am a Full-Stack developer graduated from Henry. I have professional experience as a freelance developer. My favorite aspect of programming is problem-solving and the freedom to create features for addressing issues. My main technological stack includes React, Next.js, Node.js, and PostgreSQL. I consider myself a good team player, responsible, and quick learner.

If you need further adjustments or have additional information to include, feel free to let me know!

#### Digital Tools

#### Soft skills

HTML	Bootstrap	Creativity
CSS	Redux	Teamwork
JavaScript	Express	Excellent
React	Sequelize	Communication
Node.js	PostgreSQL	Problem-Solving
Git	Figma	
Tailwind	Framer Motion	

#### Languages

→ Spanish Native

→ Ingles Intermedio (B2 Upper Intermediate)
